

PRATHIPATI RAMYA SRI VENKATA SAI

Yanamalakuduru, Vijayawada, 520007 | 9391471333 | prathipatiramya2003@gmail.com

PROFILE SUMMARY

Detail-oriented IT professional with hands-on experience in Linux-based environments and PHP (Yii Framework) application support, focusing on troubleshooting, bug fixing, and system stability. Strong academic foundation and project work in Java, Spring Boot (MVC, REST APIs, Microservices), and ReactJS enable backend and full-stack development. Passionate about transitioning into development-focused roles by combining practical support expertise with modern development skills.

EDUCATION

B. TECH | JAN 2021 – APR 2024 | SESHADHRI RAO GUDLAVALLERU ENGINEERING COLLEGE

INTERMEDIATE | JUN 2018 – MAR 2020 | NARAYANA JUNIOR COLLEGE

10TH CLASS | JUN 2017 – MAR 2018 | ADITYA VIDYANIKETAN EM HIGH SCHOOL

SKILL SET

Programming Languages: Java, Python, PHP, JavaScript

Backend Frameworks: Spring Boot (MVC, REST APIs, Microservices), Yii Framework

Frontend: ReactJS, HTML, CSS, Bootstrap

Databases: Oracle, MySQL, PostgreSQL

Microservices Tools: Eureka, Config Server, Kafka

Tools & Platforms: Git, GitHub, Linux

EXPERIENCE

SYSTEM EXECUTIVE | JHAISHNA TECHNOLOGIES PRIVATE LIMITED | MAR 2025 – PRESENT

Project-2: Malaysian B2B Web Application

Technologies: ReactJS, Python (Flask), PostgreSQL

Description:

Built a full-stack Malaysian B2B platform enabling provider and contractor onboarding, service listings, pricing, and admin approvals. Implemented Flask-based REST APIs and PostgreSQL data models to support scalable workflows and efficient data retrieval. Developed responsive ReactJS dashboards and API communication.

Project-1: HATHWAY

- Maintained and supported web applications in **Linux-based environments**.
- Resolved application issues and improved stability using **PHP (Yii Framework)**.
- Implemented bug fixes and minor enhancements, ensuring smooth business operations.
- Assisted in database debugging and query optimization for better performance.
- Collaborated with cross-functional teams to ensure timely resolution of production issues.

STRENGTHS

- Quick learner.
- Goal oriented.
- Motivated.

PROJECTS

Project: **E-commerce PR Mart - Online Grocery Marketplace** [Link](#)

Frontend : ReactJS

Project Description:

Developed a feature-rich Online Grocery Marketplace that enables users to seamlessly browse, manage, and purchase grocery items. The platform includes functionalities such as:

- ✓ Adding and removing items from the shopping cart
- ✓ Searching for products with ease
- ✓ Applying discount coupons for savings
- ✓ Maintaining a detailed purchase history for order tracking
